

CONFIDENTIAL DISPATCHES RECEIVED FROM GERARD INDICATE THAT GERMANY WILL MAKE CONCESSIONS

Whether They Will Be Broad Enough to Meet American Demands Is Uncertain.

Gerard, It Is Understood Has Received Broad Intimations That Germany Will Go to Great Length to Preserve Peace.

Reply Is Believed to Have Been Decided Upon, But Contents Are Not Made Public.

Associated Press Dispatch.
Washington, April 24. — Confidential dispatches from Ambassador Gerard at Berlin indicate that Germany will make certain concessions to the United States in response to the note demanding the immediate abandonment of her methods of submarine warfare.
Whether the concessions will be sufficiently broad to meet the American demands, appears uncertain.
However, officials reflected an air of hopefulness for an amicable settlement of the issue.
It is understood Ambassador Gerard has received broad intimations that the German Government will go to great length to preserve friendly relations with the United States.
He is understood to have gained the impression from officials of the Berlin Foreign Office, including Foreign Minister von Jagow.
The Berlin Government is content with finding a way to satisfy the United States without arousing the element which insists upon a relentless submarine campaign.
Mr. Gerard's dispatches are of a highly confidential nature and were received during the night.
An accurate forecast of Germany's response is expected from Ambassador Gerard within the next 36 hours as a result of informal conferences he has had with the Berlin Foreign Office officials.
The reply itself, it is believed, will be presented to the Ambassador by Wednesday or Thursday, at the latest, and be laid before President Wilson by Saturday.
This belief was further strengthened by the receipt of unofficial advice from Berlin indicating that the German Government had decided upon its reply.
It was added, however, that the nature of the forthcoming communication was known only to the high officials.

M'COMBS WILL NOT MANAGE

Former Chairman of Democratic Campaign Committee Says "Not Again."

By Associated Press Dispatch.
Washington, April 24. — William F. McCombs, Chairman of the Democratic National Committee, today notified President Wilson that he will be unable to continue in his present position after the Democratic National Convention and will be unable to direct Mr. Wilson's campaign for re-election.
In a letter to the President, Mr. McCombs said a new law partnership which he has entered, effective May 1, would make it necessary for him to devote substantially all his time to his profession.
Replying to the letter, the President expressed regret.
Fred B. Lynch, national committeeman from Minnesota, is expected to succeed Mr. McCombs and conduct the campaign.

VILLA BANDIT TO BE SHOT

Career of Pablo Lopez, the Bandit, Captured Saturday, Will Be Ended in the Plaza at Chihuahua.

By Associated Press Dispatch.
El Paso, Texas, April 24. — Public execution in the plaza at Chihuahua City is to end the career of Pablo Lopez, the Villa bandit captured Saturday near Santa Isabel, according to passengers arriving here today. A similar fate awaits the three men taken with Lopez.
According to Mexicans arriving here from the interior today, reports have been spread that Villa is coming north with the object of attacking the American forces.
They say the bandit now has some 300 followers and will be joined later by Pedro Bracamonte, who has 1500 men, and General Manu-elos, whose command numbers 1,000 men.
WANTS REPLY
By Associated Press Dispatch.
Washington, April 24. — General Carranza has asked for an early reply to his note of April 12 suggesting that American troops be recalled from Mexico.
This was learned officially today in connection with the fact that the Mexican Ambassador sought an interview with Secretary Lansing.
State Department officials declined to discuss the matter.

The Mexican Embassy stated that the request had not been transmitted through the Ambassador so far as known there.
It is understood to have been made directly by General Carranza, through Special Agent Rodgers at Mexico City.
Confirmation of the capture by Carranza troops of Pablo Lopez, Villa's chief lieutenant, reached the State Department today from Consul Letcher at Chihuahua.

STATUS QUO

By Associated Press Dispatch.
El Paso, Texas, April 24. — Neither General Bell, at Fort Bliss, nor military headquarters at Columbus, N.

MRS. EDITH WHARTON

American Novelist Honored For Relief Work in France.

M., had any information early today regarding a Mexican report that American negro soldiers had an engagement with civilians at Satevo.
The report, which is not credited, said several negroes were killed.
The redistribution of the American forces, as planned by Major General Funston, has been in a large measure completed, it was learned here today.
The troops are now concentrated in strong units along a line of communication said to be not much more than 250 miles long.
Reinforcements are also gathering at Columbus, N. M.
Ready to meet and eventually, the American expedition will now maintain a military status quo while diplomatic negotiations go forward at Washington.

The pursuit of Villa is over, in the belief of army officers at Fort Bliss. They believe the troops will now engage the small wandering bands of Villa bandits that roam northern Chihuahua.

BRITAIN FILES HER DEFENSE

By Associated Press Dispatch.
Washington, April 24. — The British ambassador, Sir Cecil Spring-Rice, today delivered to Secretary Lansing his government's reply to the American protest against interference with neutral commerce.
France concurs in the main with her ally, but will particularize for herself on minor points.
The note is a legal and technical defense of the sea policy of the two nations.

RECRUITING

By Associated Press Dispatch.
Washington, April 24. — While 4,699 men were enlisted in the army since March 15, when Congress authorized an increase of 20,000, army officials today estimated that the actual net gain has been something over 2,000.
Army officials said the present recruiting is satisfactory and above normal.

DEPUTIES GUARDING BIG PLANTS

Compelled to Use Clubs to Force Way Through Mob of 13,000 Angry Strikers.

By Associated Press Dispatch.
Pittsburg, April 24. — Deputy sheriffs guarding the plants of the Westinghouse Electric and Manufacturing Company at East Pittsburg, where 13,000 men are on strike, used clubs this morning to force a way through crowds of strike pickets for workmen trying to enter the shops.
It was said that between 2,000 and 3,000 men succeeded in getting inside the works.
All saloons in the village were closed until this evening. This precaution was taken as it is pay day and some \$700,000 is to be distributed among the workmen.
Strike leaders declared the trouble had spread to the plant of the Westinghouse Machine Company, and fully one half of the 3,000 men employed there were not at work.
Work was suspended in more than 60 mines owned by the Pittsburg Coal Company, employing 24,000 men, in this city and vicinity today, as the result of the order issued Saturday by the president of the executive board of District No. 5, United Mine Workers of America.

Paris Believes Germany Will Make Every Possible Delay in Crisis.

(Associated Press Cable)
Paris, April 24. — The American situation absorbs the press to the exclusion of other topics and the American note appears in a most prominent place.
All the morning papers, in their comments on the note, generally express the belief that Germany will try again to play for time, but that President Wilson, being proverbially a man slow in anger, will not budge an inch from the position he has taken.

VILLA HUNT WILL GO ON

Secretary Baker Says the Chase Is Still On.

ARMY OFFICERS REPORT

Major Generals Scott and Funston Recommend Continuance of the Campaign in Mexico, and Suggest a Redirection of American Forces. Secretary of War Holds Conference With Wilson.

Washington, April 24.—The chase for Villa will not be dropped. The American expedition is to remain in Mexico for the present. This authoritative announcement was made after a conference between President Wilson and Newton D. Baker, secretary of war, at the White House.

Mr. Baker took to the White House a joint report by Major Generals Scott and Funston recommending continuance of the campaign. After his return to the war department, Mr. Baker issued the following statement: "General Funston recommends a re-direction of the forces in Mexico for the purpose of recuperation and pending opportunity for further co-operation with the forces of the de facto government of Mexico. His recommendation has been approved, and its execution left to his discretion."

Mr. Baker refused to go further than this in discussion of the recommendations. It was said on highest authority, however, that Major General Scott, chief of staff, who went to San Antonio to confer with Major General Funston, has not in any of his telegrams to the war department favored a withdrawal of troops.

Secretary Lansing, while admitting that the negotiations with Carranza would now go on, declined to state when he would send a formal reply to Carranza's request for a withdrawal of the troops or whether such reply would be preceded by informal conferences held either here between himself and Elizeo Arredondo, Carranza's ambassador designate, or at Mexico City between Special Agent Rodgers of the state department and General Carranza.

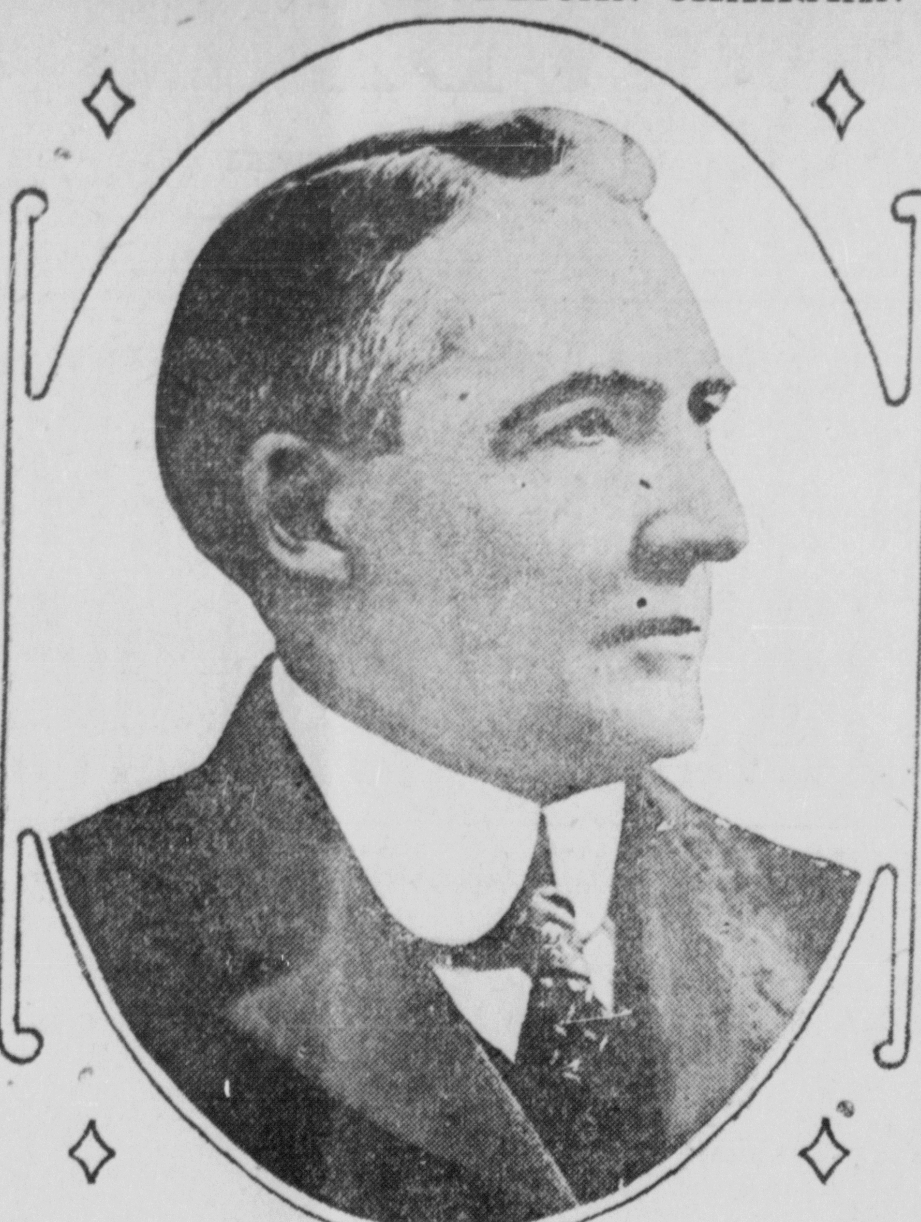

The secretary declared he had received no official confirmation of the reports from Mexico City printed in the newspapers to the effect that Carranza and Obregon had split and that Mexico City was a scene of wild disorder.

General Scott is expected to remain a few days longer on the border in conference with General Funston. Secretary Baker took the ground that he could not discuss in detail the recommendation of General Funston, but would not deny that one of the steps that probably will be taken will be a relocation of the border base from Columbus, N. M., to Presidio, Tex.

MAY CALL THE GUARDS

Washington, April 24.—Inasmuch as the Ohio militia is organized with a capable cavalry squadron and a better machine gun auxiliary than any other state guard, it is thought likely that Ohio will be one of the states called upon should it be decided to order out the militia. When General A. B. Critchfield, former adjutant general of Ohio, was here recently, he formed the opinion that the call for the militia would be issued within thirty days.

CARRANZA TROOPERS TAKE HIM

Lopez, Slayer of Seventeen Americans, Is Captured.

El Paso, Tex., April 24.—Pablo Lopez, Villa lieutenant, held responsible for the murder of seventeen Americans at Santa Isabel and who was shot through both legs in the raid on Columbus, N. M., was captured by Carranza forces near the scene of his crime, according to information received by General Gabriel Gavira, commandant at Juarez. This news was contained in a message from the Mexican government operator at Santa Isabel, who said he himself had seen Lopez. It was hoped that news regarding Villa might be obtained from Lopez.

Three of Lopez's followers were captured with him, the four being taken in a mountain cave where they had been hiding in a starving condition. All are being taken to Chihuahua City.

Residents of Santa Tomas also notified General Gavira that their town was attacked by Manuel Baca, recently reported killed in an engagement with American soldiers, and fifteen other Villa bandits. They said that they defeated and scattered the bandits after killing Baca and several others.

Accompanying the message was a request from the residents for information as to whether they could claim a reward which they understood had been offered for the body of Baca. General Gavira wired instructions to have the body sent to Juarez.

VERY BUSY

(By American Press)

Pittsburgh, April 24.—Slapping a big riot gun on a table in front of him, Fred H. Merrick, former editor of "Justice," a Socialist publication here, urged the strikers at the Westinghouse Electric and Manufacturing company to arm themselves at a meeting of the strikers in Singer hall, East Pittsburgh. Two thousand strikers were crowded in the hall and Merrick's utterances were cheered. Merrick has served a jail sentence here for contempt of court. With 13,000 men now out, leaders of the strike say they expect 8,000 more Westinghouse workmen to quit. Rioting is feared.

WHO'S AFRAID?

(By American Press)

Oyster Bay, N. Y., April 24.—If the United States goes to war with Germany, the Roosevelt will go—ail of them. The colonel said so in a statement called forth by the recent utterances, "Stand by the president," but he spoke for the men who would have to do the fighting and who would die in thousands, he said, because of the country's unpreparedness.

Mr. Roosevelt said: "Men are saying that they stand behind the president or by the president. I wish to speak for the men who in the event of war will stand in front of the president, and be between him and the foreign enemy; and who therefore will stand between danger and the men who are behind or beside the president. These are the men who will go to war at once if there is war with Germany, or with any other great power, and who fell as I do, that we would far rather go to war unprepared than see our women and children murdered with impunity and the honor of the flag stained. But it is a wicked thing that the folly of our rulers in obeying the behests of the peace-at-any-cost people and of the apostles of anti-preparedness, should make the sacrifice either useless or else needlessly and appallingly wasteful in blood."

New York, April 24.—President John P. White of the United Mine Workers of America dispatched St. Ictician William Diamond of the United Mine Workers of America to Pittsburgh, to make an effort to settle the strike of 24,000 soft coal miners in the Pittsburgh district. Mr. Diamond was do his utmost to settle the strike.

The following statement was issued after the mediator had been sent to the strike region: "All of the soft coal companies negotiating with the representatives of the United Mine Workers of America agreed to a 5 per cent increase on yardage rates. The increase was granted to 70,000 miners in the Pittsburgh district. All of the companies are observing the agreement reached with the exception of the Pittsburgh, Carnegie and West Moreland coal companies. The three companies wanted a readjustment but the miners decided that they could not waive any of the concessions granted them at the conference between the operators and miners' representatives in New York."

Ohio's Congressmen

Ohio has little reason to be enthusiastic in praise of the men who represent the state in the congress of the nation. Some meagre comfort may be gathered from the fact that they have not made monumental blunders, in public discussion of the momentous issues now confronting the nation, as did representative Mann. About the only thing to be said in their favor is that they have maintained a silence, discrete or otherwise, and kept in the background, but that's poor comfort. These are stirring times. We are face to face with a grave crisis. President Wilson's message to congress, following the sending of his note to Germany, marked a history making epoch not only for the United States but for all mankind everywhere, but not a single member of the Ohio delegation in congress has given out any expression of opinion worth while as to his attitude. From men who travel about the state, talking so much about themselves and their opponents in campaign time, the people are to be excused for entertaining the hope that they would have something to say about their attitude on the great issues with which the American people and the people of the world are face to face. The suspicion seems justified that these men, candidates for re-election, are busy remaining silent, looking and listening for an expression of public opinion, so that they will be able to get in line and be carried on to another term in congress. They appear to be much more interested in their chances for re-election than they are in the discharge of their great duties.

It is discouraging to see men in exalted positions in the service of the nation, men sent to represent and speak for the people of a great state remaining as silent as clams in times like these, when history is being made. The people of Ohio will doubtless hear plenty of talk from these same men, during the coming campaign, after the line up, pro and con, has been marked out by "leaders" of thought and action, while they travel over their respective districts seeking return to office. It is not certain, after all, whether men even like representative Mann who speak out and make blunders are entitled to more censure than the men who go about saying nothing, seeking to obtain political advantage to themselves. It is inconceivable that these men have no views on the great questions of the day. To believe that would be to entertain a poor opinion of their intelligence. Granting that they have opinions and are fearful to express them is a reflection on their courage. Neither horn of the dilemma is attractive to the people of Ohio.

The Primary Elections

The prospect for a heavy vote in the primary elections is not particularly promising. As usual the greatest lack of interest in the elections is found in the rural sections. The people of the rural sections are busy with work and their work is the sort which must be done; it can neither be allowed to go undone, half done nor delayed. Nature gives to the tillers of the soil only a limited time within which their work must be done and that time is not often longer than the work requires. Consequently about this time every year the folks who produce the necessities of life have plenty to do at home and this year is no exception. In addition to that, speaking generally, there is not much in the election tomorrow in which the people of the rural sections are particularly interested. In the urban districts, especially the larger cities, it is probable that a substantial number of the voters will go to the polls and vote and that is true because almost every city of consequence in Ohio is holding a special election. All of them want more money—a bond issue proposal for this, that or the other purpose has aroused interest. Measured by the interest which the voters evidence in primary elections they are a decided failure and yet it is certain that to advocate a repeal of the primary laws is to commit political suicide. The people generally like the primary law whether they use it on all occasions or not. It's like a good bank balance—handy to have around in case of an emergency—even though it is possible to get along without resort to it.

Poetry For Today

THE NEWSPAPER GUY.

Today he is finding the true depth of sorrow;
 Perhaps the next day he is slated to die—
 Perhaps it's of laughter he'll write on the morrow.
 But that doesn't worry the news paper guy.
 He always is there when excitement is rising;
 He plunges on through, his own safety despoising;
 He never gets left, and we know, you and I,
 He has to go some, does the newspaper guy.
 His life's not all hurry, nor toll, nor yet pleasure;
 He does it for love of the job, not for treasure.
 With sadness, with gladness, with smile and with sigh,
 The world's his great game to the newspaper guy.
 Today while you're reading, please pause for a minute
 To think of the men who, not asking "What's in it"
 Give life to the truth that protects or makes wise,
 And spare just a thought for the newspaper guy.

MILITARY TRAINING FOR SCHOOL BOYS

Youngest Army Ever Called Mobilized in New York.

OFFICERS TALK TO YOUTHS

Preparations Being Made by Association to Accommodate 15,000 Boys at a Camp During the Summer—Many Prominent Men Have Their Sons Enrolled—General Wood Co-operates.

New York.—The youngest army ever called together was mobilized recently. One thousand New York schoolboys, aged twelve and up, met at national guard armories in Manhattan and Brooklyn to enroll for the big summer camp which is being organized by the National School Camp association of Broadway.

The regiment which answered the call to the colors is but the first group of what is expected to be the largest schoolboy organization in the city. Preparations are being made by the association to accommodate as many as 15,000 boys at the camp during the summer.

The meetings were held with the approval and co-operation of Major General Leonard Wood, who detailed officers under his command to be present at the armories and talk to the boys enlisting.

The largest and most enthusiastic meeting was held at the Twenty-third Infantry Regiment armory on Bedford avenue, Brooklyn. Fully 600 boys enrolled and cheered Captain T. E. Murphy of Fort Wadsworth, who spoke to them. The officer told them of the advantages of preparedness. He narrated the military history of the country, giving examples of how heavy a price was paid for lack of preparedness.

Many prominent men attended the meeting to enroll their sons. Colonel Chamberlain of General Wood's staff brought his boy to stand in line with the sons of Colonel Mitcham, also of General Wood's staff, and of Lieutenant Commander Jessup of the Brooklyn navy yard.

A number of the faculty of the Brooklyn Polytechnic institute also was present. There is a plan under way to organize a battalion in the institute to attend the camp.

The idea of a great camp within trolley distance of New York has proved a most popular one. Hundreds of boys have had their applications filed a considerable time, while hundreds of parents have also written the association asking permission to enroll their boys.

The camp will probably be located on Staten Island, though the site has not yet been definitely picked. It will be a gunless camp; but, aside from this detail, the work will follow closely that done in grownups' organizations. Any boy over twelve in public school, high school or college is eligible to join. It is expected that a corps will be formed of medical students, who will have a splendid opportunity to study the important subject of camp sanitation.

The camp will open July 1 and will be held for two months. Boys may remain there from two weeks to the entire two months if they choose. The entire cost to each boy will be about 20 cents a day. Each young soldier will have to supply his own uniform, which will be similar to that of the boy scouts.

The incipient soldiers will be put through a stiff course of training in general field work, open order work and the other regulation army drills. In the meantime, before the camp is opened, the enrolled members of the camp will drill several days every week in the city armories.

JAIL BETTER THAN HOME.

Kruse Paid to Stay There Rather Than With His Relatives.

Chicago.—August Kruse, who for five years has been a voluntary inmate of the Du Page county jail at Wheaton, Ill., rather than live with relatives, who doubted his sanity, told the sheriff he was going west to live on a farm.

Kruse paid the county \$1 a day for the privilege of living in the jail. In 1906 a petition to have him declared

"I want to get back to the farm," said Kruse. "I sit here and think of what I used to do, and I'm going to begin over again. I'm going away off, though, not back to the old farm."

Dead Turkey Slaps a Preacher.

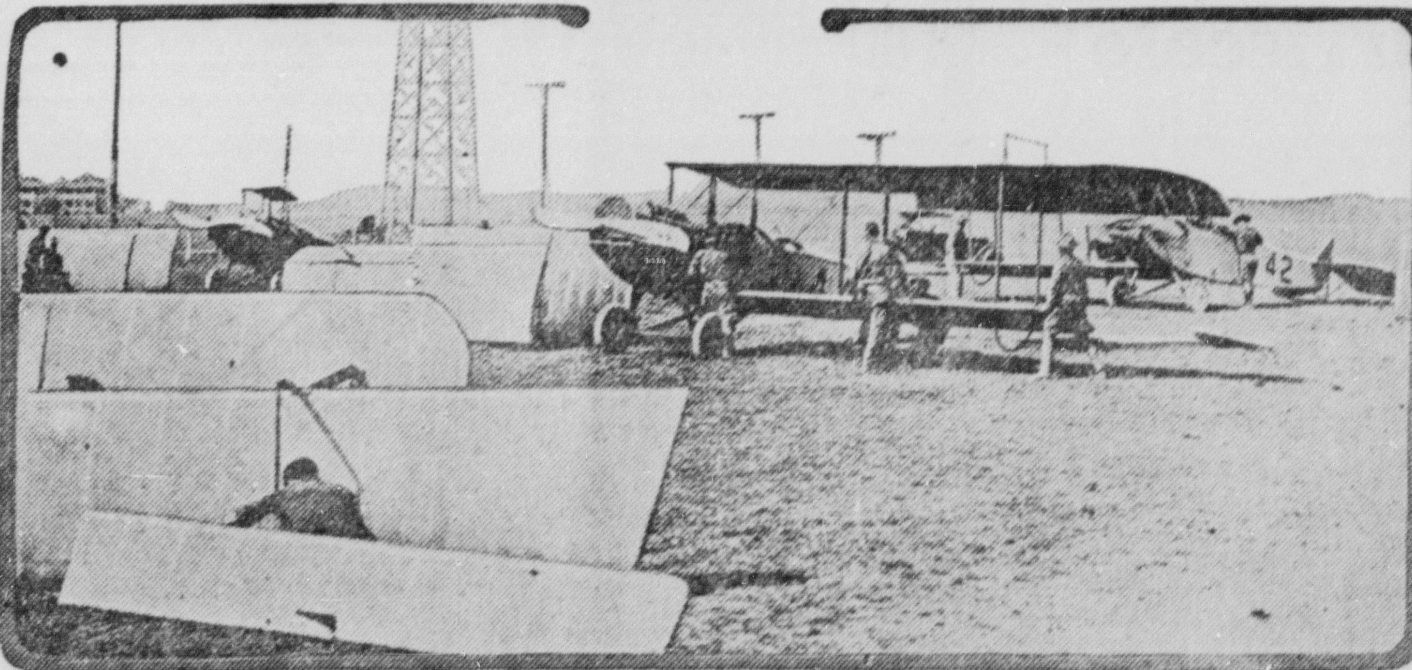

Willows, Cal.—The Rev. J. E. Eubanks, who raises from 500 to 600 turkeys a year, is suffering from a badly injured wrist. This is declared to be the result of a blow delivered by a dead turkey with one of its wings. The Rev. Mr. Eubanks had killed the turkey, a huge gobbler, and picked it and hung it up and was stepping back to admire its plump fatness when the wing flew out. It hit and nearly broke his wrist.

BEAUTIFUL EASTER SERVICES IN CITY'S VARIOUS CHURCHES

Cantatas and Other Special Services Attract Large Numbers to Houses of Worship—Elaborate Floral Decorations Add to Beauty of Ceremonies.

From the weather standpoint Easter was disappointing; the heavy pall of threatening clouds that, while they did not actually spill over—yet interfered with the usual Easter promenade.

But the Easter spirit rose triumphantly and drew crowds to the churches to enjoy the eloquent preaching, the fine music and superb floral decorations which were universal.

The various city churches vied with each other in beauty of decoration and special Easter music and the ministers generally took up the theme of the Resurrection Day and its wonderful message.

Not alone was there unusual interest in the churches; the Sunday schools also celebrated the Risen Lord in splendid programs and large collections for missions.

At Grace Church.
Easter at Grace M. E. church proved one of the most pleasing of recent years, beginning with a sunrise prayer service, which was well attended, and closing with a beautiful cantata featuring the night service.

The attendance at Sunday school was 756, and the Easter collection for the day exceeded \$275. The Primary Department rendered a brief program. For the morning preaching services the auditorium was filled.

The decorations were beautiful, consisting of Easter lilies, palms and potted plants, attractively arranged.

In the evening another large audience assembled and greatly enjoyed the cantata, "The Crucified," rendered by a choir of 32 voices, Mr. Kneisley with violin and Miss Light at the organ. The solo parts were effectively carried out by Miss Beulah Harbison, contralto; Miss Dorothy Saxton, soprano and Mr. Paul Craig, baritone.

Miss Edith Gardner, chorister, could not but be gratified by the volume, good attack and well worked out shading of her large choir.

The last anthem, "Christ is Risen" rose in a great pean of praise.

The additional solo numbers of the day were by Miss Light, Mr. Kneisley and duet by the Misses Larrimer.

The Epworth League gave a special program to a packed house, Miss Luella Riley in charge.

The feature was a very fine reading, "The Young King," Oscar Wild perfectly given by Mrs. F. G. Carpenter.

The pretty musical numbers included piano solo, Miss Frances Merriweather; evening song, Marjorie, Dorothy and Mable Florence Sparks, and solo, Miss Louise Larrimer—the accompanists Marion Christopher and Lizzie Ellen Green.

Mr. George Bryan, of the League committee, had the elaborate decorations in charge.

First Presbyterian Church.
Splendid services marked the day, introduced with a very beautiful entertainment by the Primary Class of the Sunday school. The tiny tots of the baby class were especially cun-

ning in their exercises and the cradle roll, for which mothers brought their babies, a feature. Miss Hamm was in charge.

Each class presented flowers, either potted or cut flowers, for the unusually elaborate decorations in charge of Mrs. Roy Brown's class, Miss Emma Jackson assisted the class in Mrs. Brown's absence in decorating. The flowers were afterwards sent to the sick.

A large collection was taken in as announced by Supt. Persinger.

Miss Ada Woodward deserved immense credit for the effective manner in which the Easter Cantata, "The Resurrection Hope," Carrie B. Adams, was rendered at night. The size of the choir was reduced by illness and members out of town, and the amount of volume, the expression and smoothness, with which the singers rendered triumphant anthems was remarkably good.

Mr. Harvey's cornet solo work was fine and the violin and cornet duets by Miss Kessler and Mr. Harvey a feature.

The solo work of the Cantata was most effectively taken by Miss Woodward, Messrs. R. R. Kibler and Walter Sprenger. The entire cantata working up to a melodious and glad-some climax.

Mrs. B. F. Davis, organist, added beautiful solos to the program of both morning and evening services.

A special Easter program at the Christian Endeavor meeting, led by Mr. Rudolph Schlabach, included piano solos by Misses Edith Worthington, Margaret Wilson, Jean Hollingsworth.

First Baptist Church.
The First Baptist church opened a memorable Easter worship with interesting Sunday school exercises in which a class of 14 was graduated from the Primary into the Intermediate Department. After special music as introduction the class, all in white, was seated on the rostrum and gave a synopsis of the lessons learned. Superintendent of department Mrs. Albert Snider presented the diplomas. Supt. Hicks welcomed the class into the larger department and Rev. West made a talk.

At the morning church service the choir rendered ably five joyous anthems and Dr. L. P. Howell sang a tenor solo. Miss Mable Briggs presided at the piano.

In the evening a beautiful children's program was put on, followed by baptism.

St. Andrews.
St. Andrews Episcopal church closed a week's mission of spiritual uplift, conducted by Archdeacon Dodshon, with services of impressive beauty.

Miss Jessie Leavell sang a lovely solo and the vested choir rendered buoyant Easter anthems at night. Archdeacon Dodshon's sermon on "National Preparedness" was a strong plea for national preparedness. He took the view that the nation was being insulted on all sides and must be prepared to sustain its dignity and honor. Both cross and flag were used in an effective closing ensemble as the congregation rose to sing "America."

Church of Christ
The Church of Christ celebrated

Easter in services that were pronounced exceptionally good, in charge of Mrs. Hamor McDole, Mrs. W. E. Robinson organist.

There was a great Sunday School rally and special music all day.

The evening song service was as marked by the number of solos as well as by well rendered anthems. The solos were ably sung by Miss Mable Jones, Mrs. Herbert Campbell, Mrs. Hamer McDole, Mrs. O. G. Blackwell, Miss Jane Williams, Mr. Chas. Snider. Rev. Groves made a short address and Mrs. Nina Miller gave a pleasing reading.

McNair Memorial.

The choir of McNair Memorial church more than met the high expectations of its ardent friends in the rendition of the beautiful cantata, "From Cross to Crown" and a large audience listened with rapt attention from start to finish, and at its close declared it to be splendid. Every singer was ready with his or her part, and there were no failures or weak parts in the entire program.

The splendid talent of Dr. Howell, which he so kindly contributed assisted much in making the cantata a success. The piano accompaniment artistically played by Miss Hollingsworth supported the vocal parts well.

Mr. Bush is certainly to be congratulated for his untiring labors and splendid manner in which he has led his choir to such attainments.

The church was beautifully decorated with Easter lilies and potted plants, the contribution of the S. S. classes and some special friends of the church, for which thanks are extended. Many of these were sent to the sick and shut-in people at the close of the service. The church felt that thanks were due to every member of the choir for their labors, and the perfect manner in which every part was rendered.

St. Colman's.
Easter was celebrated at St. Colman's church with the usual solemnity. The altars were beautifully decorated in cut flowers and lighted by tall waxen tapers and tiny electric bulbs. A large number received Holy Communion at the 7:30 mass.

Rev. Father Fogarty delivered forceful sermons at both morning services.

The exercises of the day were closed by the congregational singing of the hymn, "God of Might."

Wesley Chapel.
A pretty entertainment was given after the regular Sunday school services at Wesley Chapel.

M. B. SHANK HAS RESIGNED

Manager of the Ohio State Telephone Exchange Quits Telephone Game.

Washington people, especially those who are patrons of The Ohio State Telephone Company, will regret to learn that Mr. M. B. Shank severs his connection with the local exchange on May 1st.

Mr. Shank came here on February 1st, 1906 as manager of the Bell Telephone Company's exchange and remained with that company until February 1, 1909, on which date he became the manager of the then Citizens Telephone Company's plant in this county. Since that time he has remained continuously at the head of the local company exchange.

During Mr. Shank's regime The Ohio State Telephone plant in this city has made phenomenal advance the list of subscribers being increased more than 25 per cent and the service improved immeasurably.

In fact, owing largely to Mr. Shank's insistence and energy the local exchange is now one of the best equipped in the United States.

The cause of the resignation is a more flattering business offer which has been made to Mr. Shank. He will become the agent of the Mutual Life Insurance Company of New York, with headquarters at Dayton, the former home of Mr. Shank.

In telephone circles all over this section of the country, Mr. Shank has long been recognized as a top notch man.

Washington regrets that business opportunity has forced Mr. Shank to go elsewhere but the best wishes of a wide circle of friends and acquaintances go with him in his new work.

INVITES PRESBYTERIAL TO WASHINGTON C. H.

The annual meeting of the Chillicothe Presbyterian passed off most successfully at Chillicothe with good reports and fine speakers.

Mrs. Shields, wife of the Presbyterian minister of Hillsboro, was elected to the presidency upon the resignation of Mrs. A. S. Kaye of Frankfort, who has been a wonderfully efficient president.

Mrs. Frank M. Fullerton, a fine recording secretary for a number of years, also handed in her resignation and Miss Katharine Seymour, of Bainbridge, was elected to fill the vacancy.

Miss Dorothy Steel succeeded Miss Anna Hummel as Freedman's secretary.

The old officers, among whom are Mrs. Bella L. Ustick, first vice president; Mrs. Austin F. Hopkins, home secretary, of this city, were re-installed with these exceptions.

Next spring's meeting will be held in this city.

LYOYD ELEVATOR OFFICE IS ROBBED

Burglars visited the office of the C. E. Lloyd elevator, either Saturday or Sunday night, smashing a window and stealing a revolver and 50c worth of revenue stamps from a safe, which had been left unfastened so that it would not be necessary for burglars to ruin it to discover that there was nothing of value within its walls.

It is supposed that tramps committed the burglary. A peculiar feature of the burglary is that it came upon the anniversary of robbery of the place three years ago, the burglar at that time choosing the Easter time for the work.

INDICATIONS OF BACKDOWN

Feeling General in German Capital
That the Imperial Government Does
Not Court a Break With the United
States—Strict Orders Given to Ger-
man Submarine Commanders—Im-
portant Conference Held in Berlin.

Berlin, April 24.—The reply which the German government will make to President Wilson's note on the submarine issue will likely be dispatched to Washington this week. All signs point clearly to a backdown on the part of the German government, a dignified and gradual, but none the less complete, accession to America's demand that the lives of American citizens must be safeguarded.

If there is anyone in the United States who deludes himself with the idea that Germany wants war with America, or that she is about to defy America by saying, "We can go no further; if you want a break, you take the consequences," is sorely unfamiliar with the aims and the ways and methods of the German government's international policies.

Were Germany courting a break with the United States, then there would have been flashed across the cable inside of twenty-four hours after the presentation to the foreign office of the American note a brief, curt, decided reply telling the American government in so many words that what it asks is impossible to grant and that this is Germany's last word and closes the incident.

What is really coming to pass in Germany at this moment is a feverish preparation for a submission to American demands, not to be sure, for a complete abandonment of the submarine warfare, but of that which is asked in Mr. Wilson's closing paragraph, a declaration and a putting into effect of an abandonment of its present methods of submarine warfare against passenger and freight carrying vessels.

Baron Von Jagow, the German foreign minister, and American Ambassador Gerard had an hour's conference. Immediately upon its conclusion, the American ambassador is believed to have informed his government that there will be a delay, that accession to the American demand "immediately" is impossible. When the German answer is finally written there will be embodied in it, no doubt, an explanation of the delay; it will be pointed out that the facts and assertions put forth by the American government "were very carefully considered." In addition to this there may be an explanation that those facts and assertions served the foreign office to "supplement and complete" its own investigation of the cases and questions at issue.

Meanwhile the strictest possible orders have been given to submarine commanders, orders which it is believed and hoped will preclude any attack or destruction that will force the United States to act on its ultimatum without awaiting Germany's answer.

PROTEST FORECASTS BIG ROW

House Minority Threatens to
Make Trouble.

Washington, April 24.—Democratic and Republican members of the house are on the verge of a clash over the legislative program of the remainder of the session.

The majority, desirous of carrying out the wishes of the White House in

pushing through the Philippine and shipping bills as quickly as possible, is threatening to invoke drastic rules which will insure the measures right of way. The minority, while making no threats, are conducting what appears to be a mild filibuster on the agricultural bill and urging consideration of the fortifications or appropriations measures in lieu of the present special measures. In the meantime the Democrats are having many conferences in Majority Leader Kitchin's office in an endeavor to reach a working agreement.

Besides having a discontented minority, Democratic leaders face a problem within their own ranks on the Philippines bill. The White House, it is understood, favors the measure as amended by the senate to give the Filipinos freedom in four years, but this does not meet with the united approval of the house Democrats.

Another week will be required to finish the shipping bill, it is said, and unless the debate on the agricultural bill lasts throughout this week, the Philippine measure probably will be considered next. Whenever the shipping bill does come in, it is certain to precipitate a prolonged and heated fight.

Preparedness measures, which a few weeks ago were promised a clear track, are not moving rapidly to completion. The army bill, amended in the senate so as to provide upwards of 1,000,000 trained men, reposes in the house military affairs committee, due to the objection of Mr. Mann to its being sent to conference on the ground that he had not read it.

VON IGEL CASE (By American Press)

Washington, April 24.—The status of the case of Wolfe Von Igel, attache of the German embassy, arrested at New York, and whose papers the state department has promised to return to the ambassador, will be discussed at a conference between Ambassador Von Bernstorff and Secretary Lansing. The seizure of these papers by agents of the department of justice and the arrest of Von Igel, who has been released on bail, have brought emphatic protests from the imperial government.

COMPENSATION FOR THE TIME (By American Press)

Columbus, April 24.—Approximately 18,229 years were snatched from the workers of Ohio by the 73,541 industrial accidents for which the state industrial commission granted awards during the year ended June 30, 1915. This is the calculation of F. C. Croxton, chief statistician for the commission. The principal time cost, of course, was incurred by the 420 fatal accidents, which, figured on the basis of the Carlisle mortality tables, claim a total of 13,685 years. The total life expectancy of the 13 persons who suffered permanent total disability was 452 years.

Leading authorities of the United States, Canada and South America on the subject of workmen's compensation will gather in Columbus tomorrow for a four-day meeting of the International Association of Industrial Accident Boards and Commissions. Among the speakers will be John Mitchell, former president of the United Mine Workers of America, now chairman of the state industrial commission of New York.

SUDDEN DEATH (By American Press)

Hollis, L. I., April 24.—Just as his daughter, Miss Mildred, fourteen, was being confirmed by the pastor in the Lutheran church at Hollis, William H. Cappell, a prominent resident of that village, died. Mr. Cappell, who was the superintendent of the Westinghouse company's munition plant at Springfield, Mass., had come home for the purpose of seeing his daughter confirmed.

"Now, about this life insurance I contemplate taking out. Premiums vary." "Premiums?" chirped his wife. "I want a plush covered postcard album, John."—Louisville Courier-Journal.

London, April 24.—The German war office claims the capture of French trenches in the Verdun region southeast of Haucourt and west of Dead Man Hill, while Paris reports the taking of several German positions in the Avocourt wood. Hill 304 is again under heavy bombardment of the Germans.

Artillery duels have everywhere featured the fighting in France and Belgium, being particularly severe on the Belgian sector between Neuport and Dixmude and south of the Somme, where the French artillery has concentrated its fire on German trenches.

Trenches taken by the Germans from the British on the Langemarck-Ypres road have been evacuated owing to floods, which made their consolidation impossible.

The Germans are still using their big guns against the Ikskull bridgehead on the Russian front, and farther south have repulsed a Russian attack in the Lake Naroz region. The annihilation of a German scouting party near Lake Vygonovskoye and the destruction of an Austrian point north of Czartorysk are reported in the Petrograd official communication.

Four vessels—an Italian steamer, a French bark and two British steamers—are reported to have been sunk by submarines. All their crews are believed to have been saved.

In their efforts to take the fortress of Verdun the Germans up to yesterday had made use of thirty divisions of troops, amounting roughly

to 450,000 men, according to a statement issued by the French war office. The statement indicates that more than this total of men have been used, since some of the divisions have been reorganized and their depleted ranks filled out, and they have returned to the front, several times.

FOR CONFERENCE (By American Press)

Mexico City, April 24.—James Linn Rodgers, special representative in Mexico of the state department, will have a lengthy conference with Carranza and General Obregon regarding General Obregon's going north and conferring with General Funston. A note from the American government replying to Minister of Foreign Affairs Aguilar's latest requirement for the withdrawal of the American troops is expected momentarily by Rodgers.

The request for General Obregon to confer with Rodgers came from General Funston. It is believed the American government is willing and Obregon will be able, officials think, to convince Rodgers of the advisability of retiring the American troops in view of Carranza's measures to stamp out Villa's followers.

WILL TALK (By American Press)

Washington, April 24.—Count Von Bernstorff, the German ambassador, who has received several messages from his home government since the delivery of the American note calling on Germany to cease her illegal submarine operations or face a break with the United States, is to have an important conference today with Mr. Lansing, secretary of state, regarding the submarine issue. Count Von Bernstorff is expected to conduct diplomatic negotiations here of a nature similar to those in progress between Ambassador Gerard at Berlin and Herr Von Jagow, the German foreign secretary, in efforts to end the submarine crisis in a manner which will not make it necessary for this country to break off diplomatic relations with Germany.

WASHINGTON FIRE (By American Press)

Washington, April 24.—A spectacular fire threatened the entire destruction of the large building in which the general offices of the Southern railway are housed. The upper floors of the building were practically consumed by the flames and the entire structure was badly damaged by water. The loss is estimated at \$150,000.

Remarkable Success of Talented
Physician in the Treatment
of Chronic Diseases
Offers Services Free of Charge

The United Doctors Specialist, licensed by the State of Ohio for the treatment of all diseases including deformities, nervous and chronic diseases of men, women and children, offer to all who call on this trip consultation, examination, advice free, making no charge whatever, except the actual cost of treatment. All that is asked in return for these valuable services is that every person treated will state the result obtained to their friends and thus prove to the sick and afflicted in every city and locality, that at last treatments have been discovered that are reasonably sure and certain in their effect.

The United Doctors are experts in the treatment of chronic diseases and so great and wonderful have been their results that in many cases it is hard to find the dividing line between skill and miracle.

Diseases of the stomach, intestines, liver, blood, skin, nerves, heart, spleen, rheumatism, sciatica, tape-worm, leg ulcers, weak lungs and those afflicted with long-standing, deep seated, chronic diseases, that have baffled the skill of the family physicians, should not fail to call. Deafness often has been cured in sixty days.

According to their system no more operations for appendicitis, gall stones, tumors, goiter, piles etc., as all cases accepted will be treated without operation or hypodermic injection, as they were among the first in America to earn the name of "Bloodless Surgeons," by doing away with the knife with blood and with all pain in the successful treatment of these dangerous diseases.

No matter what your ailment may be, no matter what others may have told you, no matter what experience you may have had with other physicians, it will be to your advantage to see them at once. Have it forever settled in your mind. If your case is incurable they will give you such advice as may relieve and stay the disease. Do not put off this duty you owe yourself or friends or relatives who are suffering because of your sickness, as a visit at this time may help you.

Worn-out and run-down men or women, no matter what your ailment may be call it costs you nothing. Remember, this free offer is for this visit only.

A Story of Mountain Railroad Life

By FRANK H. SPEARMAN

AUTHOR OF "WHISPERING SMITH," "THE MOUNTAIN DIVIDE," "STRATEGY OF GREAT RAILROADS," ETC.

NOVELIZED FROM THE MOVING PICTURE PLAY OF THE SAME NAME. PRODUCED BY THE SIGNAL FILM CORPORATION. COPYRIGHT, 1915, BY FRANK H. SPEARMAN

SYNOPSIS.

Little Helen Holmes, daughter of General Holmes, railroad man, is rescued from imminent danger on a scenic railroad by George Storm, a newsboy. Grown to young womanhood, Helen saves Storm, now a fireman, her father, and his friends Amos Rhinelander, financier, and Robert Seagru, promoter, from a threatened collision. Safebreakers employed by Seagru steal General Holmes' survey plans of the cut off line for the Tidewater, finally wound the general and escape. Her father's estate badly involved by his death, Helen goes to work on the Tidewater. Helen recovers the survey plans from Seagru, and though they are taken from her, finds an accidentally made proof of the survey blueprint. Storm is employed by Rhinelander. Spike, befriended by Helen, in his turn saves her and the right-of-way contracts when Seagru kidnaps her. Helen and Storm win for Rhinelander a race against Seagru for right-of-way. Helen, Storm and Rhinelander rescue Spike from Seagru's men. Spike steals records to protect Rhinelander, and Storm and Helen raise Spike from death in the burning court house. Vein in Superstition mine pinches out. Seagru salts it and sells it to Rhinelander.

(Continued from Yesterday's Herald)

BURIED ALIVE

Seagru's sale to Rhinelander of the Superstition mine did not go through as smoothly as he had expected. Meeting Rhinelander at the office of an attorney in Las Vegas, the details of the transfer were arranged without much difficulty. Rhinelander's only care was to be sure that the conveyance should give him a clear title to the valuable property, and having satisfied himself on this point, the minor details were easily arranged.

While the attorney was embodying these items in a supplementary agreement, Rhinelander wrote out a telegram to Helen telling her that he was completing the transfer of the mine and would come up on No. 8. When the final draft of the contract had been made in duplicate, and signed by the two parties, in due form, Rhinelander handed over a second check to Seagru, and putting the agreement in his pocket, left the office.

Seagru watched him go with something of relief and a great deal of satisfaction. The whole scheme he had so successfully compassed looked to him almost too good to be true, and he had a hearty laugh with the attorney before they left the office together.

But, unexpectedly enough, opposition developed in an unlooked-for quarter, namely, among minority stockholders of the mine itself. Rumors flew thick and fast, and at Occaside Seagru was openly accused of underhanded work in parting with the property. To afford a clear understanding of his position, a meeting of the stockholders of the mine was called, and Seagru, when the time came, addressed the gathering in explanation of the sale.

"I have understood," he began, "there has been some criticism of my action in disposing of the Superstition mine to the Copper Range and Tidewater people. Some of our stockholders have been unkind enough to hint that there was treachery in my part of the proceedings. I have called this meeting to explain without any mincing of words why I was forced to act as I did on my own responsibility and to act quickly."

He related in detail the story of the sudden word received from the mine foreman announcing the petering out of the vein. In more veiled language, but still making himself plain enough to be understood, he disclosed the thought that had come to him of getting the mine ready for sale by salting it, and of his subsequent success in unloading the property on Rhinelander without serious loss to any of the shareholders.

Helen Told of the Disaster.

In spite of his explanation, protest was heard almost at once against his summary action in selling out without authority from the directors. Seagru met the criticisms firmly. "If I had stopped to ask the directors for authority as to what to do, the news of the failure of our principal vein would have been all over Nevada. It would have been too late to sell the property at any price to anybody."

"If the vein could be recovered, what difference would that make?" asked one of the disaffected shareholders.

"It would make the difference that you would be holding the sack instead of the other fellow," retorted Seagru, bluntly.

The chairman, one of the larger minority stockholders, proved one of the least tractable of the dissatisfied. He rose to reply to Seagru's address. "You are telling us," he said coldly, "that you disposed of one of the best quartz properties in the Superstition mountains for a song because your foreman told you the vein had pinched out. And you say your expert corroborated his statement. By what right did you go ahead in this fashion without calling us together to decide whether we did not want further expert advice on the possibility of locating the vein?"

"That part of the matter has been threshed out already," said Seagru angrily.

DEATH IN EMPTY TIN CANS.

Punch Holes In Bottoms and Save Lives, Says U. S. Health Service.

Washington.—The United States public health service announces that the tin can is a menace. An official bulletin says:

"Malaria experts of the United States health service have found that discarded tin cans containing rainwater are breeding places for the mosquito, which is the sole agent in spreading malaria.

"A hole in the bottom of the empty can might have resulted in the saving of a human life. Certainly it would have assisted in preventing a debilitating illness. Empty tin cans have no business about the premises anyway, but if we must so decorate our back yards let us see to it that the can has a hole in the bottom."

Tweed Cloth.

The word "tweed" as applied to cloth really means "twilled" and has nothing to do with the river Tweed, although much Scotch tweed is made on the banks of that river.

BACHELORS DECIDE TO ADVERTISE FOR WIVES

Members of Montana Club Must Have Qualifications.

Great Falls, Minn.—Inverness, Mont., on the main line of the Great Northern railway, has discounted leap year by organizing a bachelors' club, of which Nicholas Lane is secretary, for the purpose of advertising for young women willing to take a trip in the matrimonial boat.

The club members are required to meet a certain property qualification, one of the essentials being a 320 acre farm. There are fifty charter members, and the club is conducting a membership campaign which it expects will result in a membership of 100 or more.

The plan of the Inverness club is that each of the members shall write a letter setting forth his qualifications and the letters shall be printed in duplicate, so that copies may be sent to every girl asking for them. On getting the letters she may select the one or two or three writers with whom she desires to become better acquainted and write to them direct.

Mr. Lane will start an advertising campaign in the display columns of Montana daily newspapers setting forth that all members of the Inverness Bachelors' club have good homes, most of them had large harvests last year, own plenty of machinery and horses for successful farming and need only one thing—a wife. They are willing to submit bank references on request. The members may be reached by merely addressing the Inverness Bachelors club.

DANISH PRINCE TO WORK ON A FARM

Erik, King's Cousin, to Study Advanced Methods.

EXPECTS TO DROP ALL RANK

Wishes to Learn Scientific Agriculture So as to Help Both Himself and the People of Denmark—Son of Ranking Admiral and Is Young and Democratic—Likes a Simple Life.

New York.—When the Scandinavian American liner Hellig Olav made her way into quarantine a pleasant faced young man stood beside her rail, peering through a mist and trying to get a glimpse of the quarantine station that loomed indistinct and shadowy off the port bow. Almost as the vessel let go her anchor to await the arrival of the health officer of the port the coast guard cutter with the customs officials nosed a way out of the fog.

On the cutter were Georg Bech, Danish consul in New York, and Dudley Field Malone, collector of the port. They were on board to welcome to the United States Prince Erik of Denmark, son of Prince Waldemar and cousin of the King of Denmark. The prince was the smiling young man on the steamer's deck.

The cutter ran alongside, and as the officials started up the ladder an officer of the Hellig Olav appeared and "presented the skipper's compliments," but told reporters, photographers and moving picture men that they were not to be allowed on board. He was unmoved by their protestations and the cutter, with a disappointed crowd on board, backed away into the fog. The ship's officer smiled as he gravely touched the visor of his cap.

There was no wait for customs officials to examine the prince's trunks, for the courtesy of free entry had been extended to the royal visitor. Prince Erik was described by his fellow passengers as having pleasant and democratic manners. He was popular with the cabin passengers. His traveling companion is Johannes Plum, a friend. The prince, instead of traveling incognito, as European royalty sometimes does, registered at a hotel here as "Prince Erik of Denmark."

The prince intends to study scientific farming as it is carried on in America and to drop all rank and to settle down to the life of a real farmer. He speaks English, for he has lived two years on a farm in East Gloucestershire, England, where he made his home with a gentleman farmer and lived in a simple way.

Erik is the son of the ranking admiral of the Danish navy. His mother was Princess Marie of Orleans. He has a brother who is also devoting his life to agricultural pursuits.

FORMER GREENFIELDER IS IN MUCH TROUBLE

The following clipping, relating to a former Greenfielder, is from a recent issue of a Columbus paper:

In a cross petition to the one filed by F. H. B. Parke, said to be a Columbus dentist, in which Parke seeks to replevin from her a diamond ring, Miss Ethel Pickens, 778 Harrison avenue, Saturday at municipal court, filed an answer to the effect that Parke gave her the ring as an engagement ring, and that, during the time he had kept company with her, he had represented himself to her single, whereas he is a married man having a child.

Miss Pickens, in her answer and cross-petition, sets out that Parke gave her the ring in 1915 as an en-

gagement ring, and that he went with her, as a single man would with an unmarried girl, until February, 1916, when she says, she learned he had a wife and child and terminated their engagement. She asks damages to the amount of \$699.99, saying that her experience has been humiliating, and that the conduct of Parke was "loathsome and improper."

"GIB" WAS THERE

Alfred Segal, base ball writer on the Cincinnati Post, in his write-up of the opening game, including the following note concerning G. M. Paul of this city:

"And still 'Gib' Paul, of Washington C. H., comes here year after year and enjoys the same old thrills over and over.

"He hasn't missed an opener for 18 years.

"If 'Gib' Paul were to enter a contest for a gold medal for most regular attendance at 'openers,' his closest rival would be Gabe Well.

Gabe and Gib! "Besides Gabe and Gib and about 24,998 others there was also present George Olmer, of Philadelphia."

ICENHOWER LANDS 11-POUND PIKE

While fishing in a stream near Chillicothe Sunday, W. H. Icenhower caught a 11-pound pike, which gave him quite a tussle before he succeeded in bringing it to the shore.

The big fish was caught with hook and line, and its head was displayed at the Brown Drug Store Monday. The jaws had a spread of more than six inches and numerous teeth of needle sharpness and a half inch in length lined the jaws.

Mr. Icenhower also caught a large catfish.

NEW FAST FREIGHT SERVICE ON D. T. & I.

On or about the first of next month, if present plans are carried out the D. T. & I. railroad will put into effect a new fast freight service from Ironton to Detroit, using some ten new freight engines for that purpose.

It is planned to handle rush orders of automobiles and freight generally, and is expected to add much to the efficiency of the freight service in and out of Washington.

The new engines are now being finished in the Schenectady, N. Y., shops.

NEW HOLLAND WINS FIRST GAME

New Holland Giants defeated the Columbus Cadals Sunday in the opening game by a score of 4 to 0.

Batteries for Columbus: Hartley and Bennett; batteries for New Holland were Reno and Towel.

There were 3 hits off Reno, who struck out 16 players; 7 hits off Bennett, who struck out 7.

Reno won his own game with a three-base hit.

NERVOUS BREAKDOWN

Stamford, Conn., Nurse Tells How She Found Health.

Samford, Conn.—"I am a nurse and suffered from a nervous breakdown. I had no appetite and could not sleep at night, and nothing seemed to help me. By chance I heard of Vinol, and after taking the first bottle I noticed an improvement and four bottles made me well and strong. It gave me a hearty appetite, so I can sleep soundly night or day. I consider Vinol a wonderful tonic." Edith R. Forbs, Stamford, Conn.

The reason Vinol is so successful in overcoming such conditions is because it is a constitutional remedy and goes to the seat of the trouble. It is the greatest strength creator we know—due to the extractive medicinal elements of fresh cod livers without oil, combined with peptonate of iron and beef peptone, all dissolved in a pure medicinal wine.

We have seen so many wonderful recoveries like this right here in Washington Court House caused by Vinol, that we feel perfectly safe in offering to return money in every such case where Vinol fails to benefit. Blackmer & Tanquary. Advt.

FAST WORK BY ATHLETICS "NIBBLING" AT GERMAN POSITIONS

Mighty Urichos, of Cincinnati, Champions of the Queen City, Fall Victims to the Prowess of Local Team—Chilly Weather Cuts Attendance.

The cold, threatening weather Sunday afternoon kept the attendance at the ball park down to a figure below the high class game staged merited.

The local team played like champions and were early out in front of their strong rivals, The Urichos of Cincinnati, and were never headed, winning by the final score of 5 to 2.

The big outstanding feature of the contest was the superb hurling of McClure the big left hander from Columbus, who is now a regular on the local team.

He'll do and is bound to win many games for the local team.

All the home boys played a fine game.

Lull in Fighting at Verdun Follows Violent Engagements. Resumption of Attacks By Teutons Is Expected.

(Associated Press Cable)

London, April 24.—Again there is comparative lull in the Verdun battle, the infantry on both sides remaining generally inactive.

The French have been nibbling away at the German lines just west of the Meuse, however and report making further progress in a hand grenade attack northwest of the Caurettes Wood.

Apparently there is soon to be a resumption of the heavy fighting in the Dead Man's Hill region, for a heavy bombardment is in progress there.

The important English port of Dover has again been visited by hostile aircraft. London reports that an aeroplane appeared over the city this morning, but was driven off by anti-aircraft guns and dropped no bombs.
